PROFESSIONAL SUMMARY

IT infrastructure and DevOps professional with 12+ years in IT, including 7+ years in DevOps and cloud infrastructure. Experience spans AWS, Kubernetes, infrastructure as code, CI/CD and production reliability. Previously led systems administration teams and coordinated enterprise infrastructure work. Combines hands-on automation and troubleshooting with cross-functional collaboration, technical documentation and release support across enterprise IT and financial services and business-critical production environments.

Core focus: Cloud & Platform Engineering · Infrastructure Operations · Automation & Reliability · Team Leadership & Delivery

SKILLS & TECHNOLOGY MATRIX

Self-assessed proficiency: Expert · Advanced · Intermediate · Basic

Cloud Platforms	AWS (Expert); Azure (Advanced); GCP, Hetzner Cloud (Intermediate)
Containers	Kubernetes (Expert); EKS, Docker, Helm / Helmfile (Advanced)
IaC & Automation	Terraform (Expert); Ansible, Bash, Python (Advanced)
CI/CD & DevOps	Jenkins (Expert); GitLab CI, GitHub Actions (Advanced); Gradle (Basic)
Observability	Prometheus, Grafana (Expert); Alertmanager, Loki, ELK, Zabbix (Advanced)
Systems & Databases	Linux (Expert); Windows, networking, PostgreSQL, MySQL (Advanced)
Security & Access	IAM, Security Groups (Advanced); Vault, Ranger (Intermediate)
AI & Agents	Copilot, ChatGPT, Claude (Advanced); LangChain, automation agents (Intermediate)
Operations	Incident management, change/release (Advanced); team leadership (Intermediate)

PROFESSIONAL EXPERIENCE

GlobalLogic | DevOps Engineer

May 2022 – Jun 2026

- Maintained CI/CD and release workflows across customer projects using Jenkins, GitLab CI, Gerrit, SonarQube and Spinnaker.
- Automated infrastructure provisioning and operational tasks with Terraform, Ansible, Bash, Python and Groovy.
- Worked with development teams to troubleshoot infrastructure, validate changes and support production releases.

West Auto Hub | DevOps Engineer (Contract)

Sep 2025 – Jan 2026

- Maintained Linux infrastructure for PHP/Laravel services with Nginx, MySQL, Redis and Elasticsearch.
- Supported deployments, monitoring, backups and incident troubleshooting.

Midcontract | DevOps Engineer (Part-time)

Oct 2024 – Sep 2025

- Built AWS infrastructure for production workloads and automated provisioning with Terraform and Ansible.
- Managed Kubernetes and Helm deployments and delivery workflows across GitHub, GitLab, Jenkins and TeamCity.

PrivatBank | DevOps

Dec 2021 – Jul 2022

- Supported the migration of services from OKD to AWS EKS, including deployment validation.
- Configured Linux, Nginx, networking, monitoring and Terraform infrastructure; automated CRM application and database deployments.

UAPAY | Technical Integration Engineer

Aug 2020 – Dec 2021

- Integrated customer infrastructure and financial services with company systems and supported technical onboarding.
- Worked on payment monitoring, automated reporting, service deployment and integration documentation.

Namecheap Inc | Site Reliability Engineer

Mar 2020 – Jun 2020

- Supported production reliability through monitoring, incident response, performance analysis and root-cause investigation.
- Automated recurring operational tasks and collaborated with engineers to resolve service issues.

Fozzy Group | Team Lead System Administrator

Sep 2015 – Mar 2020

- Led infrastructure engineers and coordinated vendors and contractors for enterprise IT operations.
- Managed data center infrastructure, VMware/Hyper-V, Windows Server, SQL systems, networking and monitoring.
- Planned infrastructure work, supported budgeting and capacity planning, and reported operational status.

SELECTED PROJECT

PipeForge — Python/YAML build logic shared across local execution, GitHub Actions, GitLab CI and Jenkins; dependency handling, execution reports and resumable runs.

https://github.com/CloudOpsMaster/pipeforge

EDUCATION

2022 – 2024	**Master’s degree — Information Management Systems and Technologies** Kharkiv National University of Radio Electronics
2011 – 2013	**Master’s degree — Financial and Economic Security** Kharkiv National University of Radio Electronics
2009 – 2011	**Specialist degree — Radio Electronic Warfare** Kharkiv National Air Force University named after Ivan Kozhedub
2007 – 2013	**Master’s degree — Information Security** Kharkiv National University of Radio Electronics

LANGUAGES

Ukrainian — Native | English — B2–C1
